

Claims

1. A toy, comprising:
a spherical, rare earth magnet;
an elastic shell encompassing the spherical rare earth magnet.
2. The toy of claim 1, wherein the spherical rare earth magnet comprises a neodymium iron boron (NdFeB) magnet.
3. The toy of claim 1, wherein the spherical rare earth magnet comprises a samarium cobalt (SmCo) magnet.
4. The toy of claim 1, wherein the spherical rare earth magnet comprises an aluminum nickel cobalt (AlNiCO) magnet.
5. The toy of claim 1, wherein the elastic shell comprises an elastopolymer.
6. The toy of claim 1, wherein the elastic shell comprises a polymer foam.

7. A game, comprising:
 - a ball comprising a spherical, rare earth magnet and an elastic shell encompassing the spherical rare earth magnet; and
 - a target layer having a magnetic attractive capacity.
